EXPERIENCE

Sanji Solutions LLP Apr. 2026 – Jul. 2026
Associate Python Developer Intern Mumbai, India

- Created a KYC verification module integrated with **DigiLocker**, alongside an AML (Anti-Money Laundering) tool featuring mule account detection, risk analysis, round-tripping detection, and report generation to strengthen compliance and fraud monitoring.
- Designed and deployed the solution for on-premises/private network hosting to ensure enhanced data security, incorporating two-factor authentication (2FA) for secure login and **role-based access control (RBAC)** to manage user permissions.

Knowledge Lens: A Rockwell Automation Company Aug. 2022 – Oct. 2024
Software Engineer Bengaluru, India

- Developed and maintained **30+ RESTful APIs** for frontend and IoT services, improving system reliability through structured error handling.
- Designed a secure Edge Installer API to standardize model deployment across devices, reducing setup time by **80%**.
- Optimized file transfer mechanisms in Diode systems using TCP/IP communication, cutting latency by **30-40%** while ensuring 100% data integrity.
- Built backend utility modules integrating **Redis, Cassandra, and KairosDB** to support IoT workflows, improving data processing efficiency by 20-30%.
- Developed and integrated an **SMTP**-based email notification utility for automated system alerts.
- Automated manual logbook processing, **reducing turnaround time** from 3-4 hours to 10 minutes.
- Conducted **code reviews** to enforce clean architecture principles and improve maintainability.

Knowledge Lens Mar. 2022 – Jun. 2022
Software Engineer Intern Bengaluru, India

- Enhanced **SQL queries** by eliminating unnecessary SELECT statements and refining JOIN operations, reducing database load by 30%.
- Strengthened backend reliability by formalizing API documentation aligned with SDLC best practices, leading to a **20-25% reduction in production issues**.
- Accelerated frontend feature delivery by documenting clear API contracts, reducing integration-related rework by **70-80%**.

EDUCATION

Global Academy of Technology Apr. 2018 – Jul. 2022
Bachelor of Engineering in Computer Science and Engineering 8.5

SKILLS

Languages: Python, SQL.
Frameworks: Fast API, Flask API, Django.
Databases: MySQL, PostgreSQL, Cassandra, Redis.
Version Control & Collaboration: Git, GitHub, GitLab.
Services: Azure.
DevOps / Containerization: Docker.

COURSES AND CERTIFICATIONS

Generative AI Fundamentals Apr. 2026
Databricks

Python Django For Beginners Sept. 2025
MindLuster

Microsoft SQL for Beginners Jun. 2024
Udemy

HTML, CSS, and Javascript for Web Developers Aug. 2020
